

LEHIGH
UNIVERSITY

Built for

TOMORROW

Built for *TOMORROW*

At Lehigh, we believe that with every challenge comes opportunity.

Together we can tackle some of the biggest issues facing our planet—bettering ourselves, and the world, along the way. As one of the nation's most distinguished private research universities, we are built to offer a unique undergraduate experience marked by abundant opportunities and resources, and the support you'll need to accomplish whatever you set out to do. Here, you'll join a dynamic and collaborative community that will push you to be your best both in and out of the classroom.

Uniquely Lehigh

Lehigh develops students who are built to creatively solve problems, collaborate on all levels and make an impact on humanity. Here you'll find a wide range of unique-to-Lehigh opportunities that will prepare you to tackle the challenges of today, and tomorrow.

+ Intercollege Interdisciplinary Programs

Lehigh's intercollege interdisciplinary programs, Computer Science and Business (CSB), Integrated Business and Health (IBH), Integrated Degree in Engineering, Arts and Sciences (IDEAS) and Integrated Business and Engineering (IBE), teach students to fuse thinking from across colleges to solve problems and succeed in real-world environments.

+ Lehigh@NasdaqCenter

Lehigh@NasdaqCenter is an exclusive education-industry partnership with the Nasdaq Entrepreneurial Center, formed to build entrepreneurial leaders that transform businesses, organizations and new ventures. Lehigh@NasdaqCenter helps students develop an entrepreneurial mindset and the skills to transform and innovate through real-world entrepreneurial learning experiences and innovative programs like Startup Academy and Silicon Valley Innovation Internship.

+ Iacocca International Internship Program

The Iacocca International Internship Program provides fully funded work and research opportunities overseas in the summer. With options in roughly 30 countries, you'll find a wide variety of hands-on international experiences for students in most majors, including a combination of academic and professional work, research or group projects.

+ United Nations Partnership

Lehigh was just the sixth university in the world to have official recognition as a Non-Governmental Organization (NGO) by the United Nations. This NGO status means you'll have the opportunity to attend UN conferences and private briefings, intern with UN NGO offices worldwide, serve as a youth delegate and host ambassadors and UN delegates on campus. More than 200 Lehigh University students have served as UN Youth Representatives.

+ Innovative Ideas, Meaningful Mentorship

Lehigh's esteemed faculty work within and across a variety of disciplines to tackle some of society's greatest challenges through their research and teaching. You'll encounter dedicated professors who serve as mentors, encouraging curiosity and collaborating with students in a dynamic research environment.

CREATIVE INQUIRY

Creative inquiry at Lehigh invites you to pursue new academic, creative and artistic pathways that lead to transformative new innovations, expressions and questions. The Mountaintop Summer Experience, a student-driven program to propel projects towards making a tangible impact, is just one of the creative inquiry opportunities you'll find on campus.

A Dynamic COMMUNITY

Discovery, challenge and growth aren't limited to the classroom and lab.

The Lehigh community is diverse and inclusive, and our students are involved, accomplished and full of school spirit. From clubs and activities to campus-wide events and our college town of South Bethlehem, you'll find plenty of opportunities to discover things about yourself and the world around you.

Notice of Nondiscriminatory Policy as to Students: Lehigh University admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, national and ethnic origin in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.

APPLY

We seek students who are eager to learn, consistently work hard and desire to make a positive impact in their communities and the world. As a result, some factors we consider when reviewing an application include the student's character, curriculum, grades, personal background and how they spend their time outside of the classroom.

Lehigh will be test optional indefinitely.

FINANCIAL AID

At Lehigh, we prioritize access and opportunity for all talented students. We have a deep and long-standing commitment to need-based financial aid and continually seek new ways to provide access to a Lehigh education for all students. Our Financial Aid Office is here to help you through the application process and beyond. To estimate your financial aid award before you apply, we recommend you use the Net Price Calculator on our website.

>\$145M

available in grants and scholarships

>50%

of current Lehigh students receive some form of financial aid
